

Learn about the future of growth in Strathroy-Caradoc

Notice of Virtual Public Information Session

Based on a study of the Municipality's job, population, and housing growth trends, there is a need to identify additional lands to accommodate future growth. This will be achieved through an expansion of the Municipality's settlement area boundaries in Strathroy and Mount Brydges, informed by a comprehensive technical review and evaluation process.

The Municipality is seeking your input at a virtual Public Information Session where the draft approach to accommodating growth, including the preliminary proposed settlement area boundary expansion, will be presented, alongside an update on the Municipality's Comprehensive Review. No decisions will be made at this meeting and all feedback received will inform potential revisions.
