Subject: Dell Drive Proposed Sidewalks
Date: Monday, June 10, 2024 9:56:38 AM

Sidewalks are not required on Dell Drive, I have lived here for 34 year and children have been walking to both schools with no problems. If people are parking on both sides of the street near the walk though for St Vincent then that is a by-law or police problem. Putting a sidewalk on the interior of the block would create more of a problem for the homeowners limiting the parking in their driveways. Was there a traffic study done and why weren't local residents asked for their input regarding sidewalks. How many children live on Dell Drive and would use these sidewalks? It makes more sense to close the walkway eliminating the drop off zone that parents have created.

Awaiting your response or reply
