There was (1) Use of Force Reports submitted for the month of December 2024.

- Domestic Assault in progress involving male with extensive Police history, known to be violent and carry weapons. Police arrive at location and are advised that male is inside of the apartment unit and is currently under the influence of unknown narcotics. Police gain entry to the unit and attempt to locate male who is not presenting himself. Police find male tucked into small closet at far corner of apartment. Police activate CEW and point at male subject to gain compliance. Once presented, male becomes resistant and officers use physical force to ground male and eventually arrest. Hours later male becomes confrontational while in wash court and begins to challenge officers. CEW is again activated to gain compliance in returning male to his cell.
