Subject: Safety Concern – Dangerous Intersection in Front of Action Trailers

Dear Municipal Officials and County Representatives,

As a long-standing local business and member of the Strathroy-Caradoc community, **Action Trailers** is writing to formally express serious concern about the dangerous intersection located directly in front of our facility at **4728 Egremont Drive**.

Over the past several months, we have witnessed a disturbing number of traffic accidents and near-misses at this location. These incidents are not isolated or infrequent; they are occurring with alarming regularity. The situation has become out of control, and immediate attention is needed before a life-altering tragedy occurs.

This is not simply a traffic inconvenience, it is a growing public safety crisis. The constant risk at this intersection endangers our employees, customers, and the broader community. The combination of high-speed traffic, poor sightlines, and inadequate traffic controls makes this area unnecessarily hazardous for anyone trying to navigate it. The lack of visibility and clear signage only adds to the confusion, especially for those unfamiliar with the area.

As a business serving thousands of customers each year and employing local residents, we are deeply invested in the well-being of our staff, our clients, and the community at large. Every day we see firsthand how this dangerous intersection threatens not only safety, but also confidence in our local infrastructure.

We are urging the **Municipality of Strathroy-Caradoc, Township of Adelaide Metcalfe, and Middlesex County** to take coordinated and immediate action. Specifically, we are asking for a formal traffic safety audit of this intersection, followed by the implementation of short-term improvements such as enhanced signage, flashing warning lights, and reduced speed limits. Additionally, we urge you to prioritize long-term infrastructure upgrades; including traffic signals, a roundabout, or engineered controls to permanently improve safety.

This matter is urgent. Our team is more than willing to assist by providing documentation, sharing what we've observed, and participating in any community discussions or consultations. The community deserves safer roads, and this intersection is a clear and pressing hazard that requires prompt and decisive intervention.

Thank you for your time, and for taking this matter seriously.

Sincerely,
The Team at Action Trailers
